Town of Mount Pleasant Annual Wastewater Collection Report June, 30 2015 through June, 30 2016

Introduction:

This report is produced in compliance with House Bill 1160 passed by the General Assembly of the State of North Carolina requiring that all entities that own or operate a wastewater collection system make an annual report available to their customers. This report includes information regarding how well the system is operated, what violations have occurred, if any, and other pertinent information.

This report is to provide an understanding and informative description of the wastewater collection system and promote a general awareness of its operation.

The following is the contact information and the professionals designated by the State of North Carolina as the Operator in Responsible Charge [ORC] and the Back-up ORC of the Town of Mount Pleasants wastewater collection system.

Mount Pleasant Public Works Department

| Back-up ORC: | Tommy Alexander, | Certification | #988127 |

Collection System Overview:

The wastewater collection system of the Town of Mount Pleasant has approximately 811 connections that service residential, commercial, and industrial customers. There are approximately 75,760 feet of sewer lines in the collection system with sizes that vary from 6 to 16 inches in diameter. There are 8 wastewater lift stations in the collection system located in areas where gravity flow cannot be achieved. The purpose of the wastewater collection system is to transport the sewage generated by the town customers to the wastewater treatment plant which is owned and operated by the Water and Sewer Authority of Cabarrus County [WSACC].
